

DFG-Graduiertenkolleg 2493

FOLGEN SOZIALER HILFEN

Registration form for the conference of the DFG Research Training Group 2493 „Consequences of Social Services Work“:

“Interdisciplinary perspectives of addressee-oriented consequences research”

Date: 20th October 2021

Start: 1 pm

Venue: digital via ZOOM

Within the framework of the conference, the Research Training Group integrates different approaches to the field of social services work and deliberately uses the term "consequences" broadly. Thus, in addition to wanted, intended and conceptually defined goals, other, unwanted, unintended and side-effects of social services are also considered. Another central focus of this conference is the consideration of consequences from an addressee-oriented research approach.
